

GETTING BACK AT MOVES US CLOSER TOWARD FASCISM

Don't spread hate. Work together.
Invite others to join the Resistance.

Don't Protest: Rally

1. Pick A Single Goal

Identify one thing politicians can do to address your demands. Reward them when they give in,

2. Defend Your image

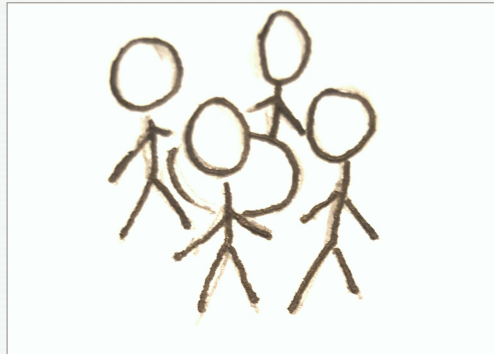

Opponents will try to tarnish your message. Don't give them any excuse. Carry and respect the flag, Get a permit to march. Have strong friends ready to help keep things peaceful.

3. Invite New Friends

Including allies who might not agree with everything you say can give credibility to your message. A rally for a concise solution will help make new friends, and that defeats fascism.

ORGANIZING STARTS WITH A CONVERSATION

Organizing means people working together for change. It is a powerful threat to fascism. Create a meeting of your friends and acquaintances to talk about concerns and possible solutions.

Being a facilitator means calling the meeting, keeping the meeting on track, and encouraging people to work for real solutions. Identify people to take on different responsibilities and make sure they carry out their promises. Train other people to lead and start their own groups. More people involved is better.

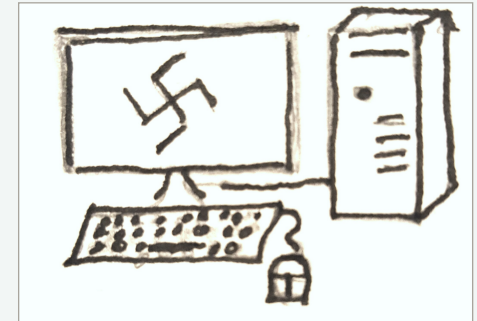

STOP FASCISM

The World Needs You

DEFEND DEMOCRACY AGAINST THE RISE OF NEW FASCISM

America is at risk from a new form of fascism. These fascists worked hard to get Donald Trump elected. Instead of jack-booted thugs in the streets, we have re-booted thugs on the internet, who threaten, harass, and attempt to destroy everyone who dares to stand up to their lies and bullying tactics.

These fascists seek to destroy all of democracy while trying to steal the American flag away from you. Do not let them have it. Fight back at all costs. Defend what is good, demand changes that will make us better. And don't let America fall to the fascists.

*Instead of trying to be right, try to learn.
Work together to make things better*

Fascism has tricked us with fear, luring us to treat fellow citizens as criminals, deplorables, and illegals. It attacks the most vulnerable, our own insecurities. And, it teaches us to respond with anger.

Both Liberal and Conservative bubbles are rampant with fascist memes, turning us against each other, to the joy of the fascists. Maybe the problem with cops isn't racism. Maybe what's hurting your paycheck isn't immigrants & treaties.

Maybe our real foes are the super rich and special interests who buy lobbyists to 'speak on your behalf' while telling you what to think. Think for yourself!

Challenge yourself, to save democracy.

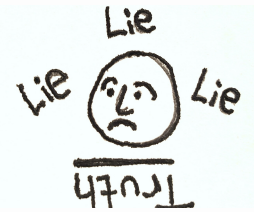

Beware a stronger Police State; greater presence, encroachment into privacy. sentencing mandates, growing prison populations, limited freedoms.

FASCISM & HOW TO STOP IT

Fascism seeks total destruction of democracy. It attacks truth, free speech, privacy, the economy, definitions of what is acceptable in society, and your rights to challenge powerful people. Fascism starts by turning people against each other with lies, and ends with complete military dominance and dictatorship. Don't be so foolish as to think it can't happen in America. It has already begun.

DESTRUCTION OF TRUTH

Fascists attack the free press and free speech, & spread lies. Fight back by verifying everything, and be ready to accept facts you dislike. Challenge what you think is true. Do you already believe fascist lies? Defend the press, defend speech, and recognize when the govt. tries to silence people.

DESTRUCTION OF DEMOCRACY

Fascism seeks to destroy everything about a democracy, respect for judges and laws, norms of behavior i.e. talking about the size of a penis. Fascists will change history, and make it difficult for people to participate in elections under the guise of 'fraud', & confusion. Defend democratic institutions for everyone.

THE PEOPLE DIVIDED:

Fascism wants to divide us. It starts with a two-party system, where you must vote against what you hate instead of vote for what you hope. Fascism says, "Those people are trying to hurt you, so hurt them first." Fight fascism by unifying America, even among those whom may not like or agree.

WHERE'S YOUR MONEY

Fascism takes money thru corruption & the privatization of tax dollars. Tell your leaders to stop giving taxes to businesses. Support candidates who agree to this. Buy products from small businesses. Pay attention to how much CEOs get paid. Complain to congress when laws benefit the wealthy and not the working class. Remember, your congressman is probably corrupted by donations. He might think it's for a good cause, but it opens the door for fascism.
